C. railway; R. H. Hull & Co. have brought their famous Jerseys from Brampton, Ont.; Irvine, Jamieson & Sons, of Munton, have 10 head of Holsteins; J. H. Lacroix, of Okotoks, has 25 Holsteins.

AMERICAN PUBLIC IS WITH BRITAIN IN WAR, SAYS MAY

Ald. May Returns From American Metropolis Where Things Are Lively.

DEMONSTRATIONS SHOW DIRECTION OF SYMPATHY

Effect of Shipping Congestion is to Throw Longshoremen Out of Work.

Alderman G. H. May arrived back in the city this morning from New York. The alderman went east to attend the Canadian convention of municipalities, but on account of the war the convention was adjourned.

"The American public are with Britain in this war," declares the alderman. "In New York people were parading the streets with the flags of Britain, France and Russia and singing national airs, but such demonstrations were discouraged by the authorities. In order to preserve peace and to prevent any violation of America's neutrality taking place."

Alderman May, who formerly was in business in New York, states that there are 100,000 German ships in that city and it is estimated that the German population of New York is greater than that of any other city in the world. Nevertheless the Germans in New York do not appear to want war and are very quiet and peaceable. New York is also estimated to have 800,000 Irish men, who are very loyal to the motherland.

The shipping in New York harbor was very congested, says Alderman May. The German ships were tied up there. The day the Yafelard arrived in New York Mr. May, a German city outside Berlin, was aboard the ship. She is a very magnificent vessel. The effect of the war is being felt by working classes in New York and 2,000 longshoremen have been thrown out of work owing to the congestion of shipping.

In view of the condition of affairs Alderman May cancelled his proposed trip to Paris, where his two sons reside, and returned to Edmonton.

From his Bonnie Brans stock farm, Wm. Gilbert, of Mundare, Alta., has 13 Holsteins and 20 Friesian pigs from Irish Creek stock farm; J. Bateman, of Ingham, has 12 Holsteins from his Big Bend stock farm; James Hoden & Son, of Ingham, Que., have brought 14 Ayrshires, from Ingham, Canada; Roland Nesbitt, of De Winton, Alta., has a herd of 20 Ayrshires.

WINNIPEG WHEAT IS QUIET; NO SOLUTION TO EXPORT DIFFICULTY

Winnipeg, Man., Aug. 11.—There was practically nothing doing in wheat futures on the grain exchange, traders being busy with the export difficulty. No solution on the export difficulty having been devised, prices eased off in United States markets, and the home market followed suit.

Winnipeg wheat opened 1/2 to 1/4 lower, and closed 1/4 to 1/2 higher. At noon when it had declined a further 2 1/2 cents to 25 cents on October, and December, while oats advanced 1/4 to 1/2 higher. There was a good cash demand for No. 1, 2 and 3 northern wheat, and quite a few offerings on the market, buyers being in slight eastern, milling interests. Oats, barley and flax spot were quiet.

Inspections on Monday were 204 cars and in sight were 70.

The weather has been cool with one or two recording two degrees of frost. No rain recorded.

AUSTRIAN TROOPS BEAT A DISORDERLY RETREAT WHEN ATTACKED BY RUSSIANS

Evacuate Strong Position in Entrenched Village in Galicia—Body of Lancers Are Scaled—No Other Engagements Reported in That Part of Frontier.

St. Petersburg—(via London—Aug. 11)—The Russian general staff announces that Russian troops today dislodged a large body of Austrian troops from the entrenched village of Zaloch in Austrian Galicia to the southwest of Volynsk. The Russians nabbed a section of the 15th Austrian infantry while the 11th Austrian Lancers fled in disorder.

The Austrian troops which previously had occupied Radiviloff hastily evacuated the place after the Russian success on Austrian territory.

No other serious engagements have been reported from the Austro-Russian frontier.

London, Aug. 11—A news dispatch from Brussels says that it is officially announced there that the German losses in Belgium in the recent fighting was 2,000 dead, 20,000 wounded, and 5,000 prisoners.

VIVID STORY OF BLOODY CONFLICT AT LIEGE SIEGE

Unsuspecting Germans in Massed Formation Pitilessly Mowed Down by Belgians—Cold Steel Strikes Terror Into Hearts of Invaders Who Fled Only to Be Struck From Behind by Chasing Enemy—Many Wiped Out by Exploding Field Mine.

London, Aug. 11.—A correspondent for the London Times describing the attack of the Germans at Liege states that he was told by a Belgian officer who was wounded in the engagement that the carnage there was almost indescribable. It appeared that neither the German officers or the men had any realization of the fact that once they passed within the danger zone of the heavy siege guns that they had laid themselves open to the fire of the machine guns.

In a few moments the glacis was swept clean of living beings and its green turf was reddened with the slaughter of piles upon piles of Germans.

All this time the men concealed in the Belgian trenches were anxious to be up and at the enemy, says the correspondent, but they were held back till the Germans were almost in touch with them.

Fifty Yards Range.

Much of the rifle firing took place about 50 yards range, but even this was not close enough, and presently the Belgians, with fixed bayonets threw themselves onto the disorganized Germans, who had been pushed right up against them.

Bayonet encounters were very frequent throughout the day, and it is stated that cold steel more than anything else struck terror into the hearts of the Germans.

At the very height of the bayonets, it is related, many of the Kaiser's troops, most of them from the far eastern borders of Germany, in a strange country and fighting a strange people, turned and ran; others held up their hands and surrendered wholesale.

"It was tragic how these poor Germans were driven up to the guns in the forts in massed formation. They came so reluctantly that it was obvious they came only under compulsion. They stood not five paces apart and barely fifteen paces between the ranks, thus presenting a solid front which even a woman who had never handled a gun could not have missed.

Could Not Miss Them.

"We simply could not fail to hit them, and before our infantry charged with bayonets the dead lay in fields in great heaps.

From what I have been told about Port Arthur I do not believe that even the slaughter there was ever so great as at the first attack upon Liege.

"When our men charged, many of the Germans turned and ran terror-stricken. Hundreds of them were struck with lances and bayonets in the back as they ran. Of my own charge I only know that my lance was broken as I stuck it into some German."

According to the correspondent, a great body of Germans was wiped out by a field mine which General Leman, commanding the Belgian forces, waited to explode until the German troops were actually marching over it. To lead them on to the mined field General Leman sent out a small detachment of Belgian infantry with instructions to retire before the Germans until the latter should be led right into the trap. The invaders came on quite unsuspecting, and the whole force that had started to pursue what they conceived to be a body of fleeing Belgians, was destroyed.

Salient Features of Today's War News

In and around Liege the situation was unchanged today. The Germans held the town itself, but the forts still were fighting strongly. The German army in the north was reported entrenching itself on the Ourthe, while two large divisions of cavalry had got Tongres, north of Liege.

It was expected that a general advance was in preparation and a battle imminent in which the Germans would be confronted by the allied Belgians, French and British.

The French at Muehlhausen, Alsace, met with opposition after their occupation of that city.

A superior force of Germans caused them to leave the place and take position outside, where an action will take place, details of which have not been made public. French reports are indefinite but give the impression of a French success.

Nine German spies were arrested today in Belgium. A secret wireless apparatus was discovered in a German store in Brussels.

Fighting evidently has occurred on the Russo-German frontier, where six carloads of German prisoners were reported to have passed through Vilna today on their way to the Russian interior.

Russians have concentrated a considerable army in Finland thus disposing of German reports of the taking of a German army corps there.

Bulgaria apparently is mobilizing all her forces, as she announces, to prevent a breach of her neutrality.

The United States diplomatic officials in Europe have the further task since yesterday of working out French interests in Austria and Austrian interests in France.

A state of war has been proclaimed in the southern provinces of Holland.

Russian funds seized in Berlin banks by Germany amounted to \$25,000,000.

The German cruisers, Goeben and Breslau, still are at large in Mediterranean, according to reports.

Germans are said, Belgian official reports, to have lost 2,000 killed, 20,000 wounded and 9,700 prisoners in the recent fighting in Belgium.

EXHIBITION OPEN TODAY 2 O'CLOCK; EVERYTHING READY

In Every Branch Big Fair Superior to Any That Has Been Previously Held.

MIDWAY PROVES GREAT
ATTRACTION FIRST DAY

Manufacturers' Building Represents Fine Gathering of Local Exhibits.

With the advent of darkness yesterday at the fair grounds, the bustle of the preparatory work, the splash of the painter's brush and the sounds of the working electrician came to a halt and the greatest and largest exhibition ever held in western Canada was completed and ready to be opened to the Alberta public. From early yesterday morning until late in the evening the grounds were thronged with the busy advance guards of people, all eager to be among the first to view the beautiful booths, the exhibits of live stock, and to parade the midway. The official opening took place at 2 o'clock this afternoon by the Hon. Frank Oliver, Lieutenant Governor G. H. V. Bulyea and an escort of mounted police.

Superior to Former Fairs. In every branch the exhibition of 1914 is far superior to those of former years. In the great variety and increased number of displays and the points which have been taken in the construction of the booths, the exhibition will far surpass anything yet seen in Edmonton.

A large crowd will be attracted this afternoon by the presence of some fast racing and to those who wish to "plunge" their mites on favorites and others the new betting ring completed last evening will prove a welcome addition. The field of horses this year will be a large one and as many of the entries have shown their worth on nearby tracks, the followers of the turf will be more than satisfied. Pleading to the races the judging of both horse and saddle horses will take place in front of the grandstand.

Shows Great Feature. The darker shows, which offer the pleasure attractions this year, will be a great feature. The shows were opened last evening and attended by large crowds. The attractions this year show a greatly increased variety, while the expected fast women, the music chamber, the fortune-teller and dancing girls, the cane and knife booths and all the rest of the attractions which constitute a midway are on hand.

The midway was the great attraction last evening and many were the men and women who went to see the latest news from the east and war and gave themselves to pleasure. Hundreds of electric lights were strung along the midway. The popcorn and peanut vendors, the dodging negroes and cane vendors, the naughty men and the mixer of red lemonade, all did a thriving business until late in the evening.

Fine Gathering of Exhibits. The Manufacturers' building is a gorgeous sight. Apparently no expense has been spared in making it as beautiful as possible and the exhibitors are receiving ample satisfaction through the words of praise given by the public. Every available bit of space in the building has been utilized and the whole represents as fine a gathering of exhibits as has ever been offered to a public.

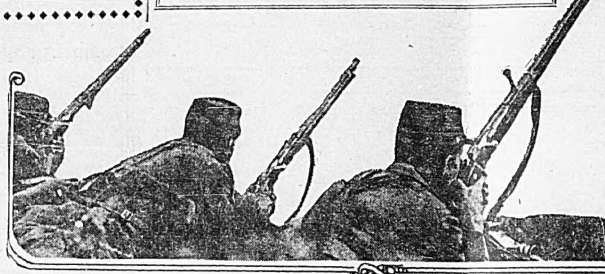

Notable among the exhibits in the Manufacturers' building is that of James Hamey, limited. The booth

GERMAN SOLDIERS DRIVEN AS SHEEP TO THE SHAMBLES

Terror Fights Against Discipline as Officers Drive Men at Sword's Point to Certain Death—Avenues Opened up in Banks Where Tuetons Rush Shoulder to Shoulder—Masses of Dead Accumulate on Green Stretches Before Forts.

London, Aug. 11.—Despatches and advice from Belgium are unanimous in describing the repulse of the Germans in their attack upon Liege on Friday as a carnage. The correspondent of the Times, in a letter mailed from Brussels, tells what he learned through personal interviews with German prisoners and wounded men and officers on both sides, who have been brought to Brussels.

He says that when the German army first advanced upon Liege, the officers believed that the sole task before them was of pouring in a continuous fire that would wipe out all the Belgian opposition. But with the men in the ranks the situation was otherwise. The German soldiers, he says, were gloomy and bewildered. They had not wished to be at the front, and scarcely realized why they were there. They already had heard terrible tales of multitudes of comrades who were being driven into Germany and devour it, and they

were frightened at the prospect of war.

Holocaust of Victims. "Incredible as it may seem," writes the Times correspondent, "Liege was a veritable slaughterhouse. The result of this policy, he says, was a terrific slaughter among the closely concentrated ranks of the Germans.

According to some accounts the men were actually driven forward like sheep by their officers. Terror fought against discipline. "When by the military fusillade of the Belgians began, avenues were opened up in the German ranks," writes the correspondent. "Masses of dead began to accumulate in the green stretches that lay before the forts." Quoting a Belgian wounded soldier, the correspondent says, "it was death in his eyes."

Recall Broken and Shattered. "But still the Germans were pressed forward by their officers at the sword point. Detachment after detachment was hurled against the fortifications, only to recoil, broken and shattered from the fearful fusillade."

Yet still they came, more and still more of them, cattle ruthlessly driven to their slaughter as though on a timetable. Apparently no change of plan had been made for any change of plan in event of a check to the German advance. Certainly the Belgians suffered heavily, says the correspondent, but such accuracy as the Germans inflicted upon the enemy was only at a frightful sacrifice to their own numbers.

"At one of the forts the Germans succeeded in gaining a footing on the river bank in front of the muzzles of great guns, and here they believed themselves momentarily safe from the massacre." It actually seems," writes the correspondent, "recounting his conversation with a Belgian officer who described this scene to him, that both officers and men had no realization of the fact that once they had passed within the dangerous zone of the heavy guns there had laid themselves open to the fire of the machine guns."

Half a million bushels of oats is the contribution which Alberta will send to England for the use of the British army.

A meeting of the executive council of the Alberta government was held yesterday afternoon when the matter of making some gift to the mother country was considered. It was decided that the oats would be a valuable at such a time and would be a very fitting offer from this province.

Alberta is the first province in the dominion to follow the example of the federal government in making a gift of produce to the old country in this time of need.

Half a million bushels of oats will take over 500 freight cars to transport this amount of grain to the Atlantic. The government undertakes to deliver the grain free of charge at the Atlantic seaboard. Including freight charges the value of the gift will approximate one hundred and seventy-five thousand dollars.

The announcement of Alberta's gift was contained in the following telegram despatched to the secretary of state at Ottawa after the council meeting:

Government House, Edmonton

Ottawa:

I am requested by my government to ask you to tender to the imperial authorities, on behalf of the province of Alberta, half a million bushels of Alberta oats, delivered free of charge at any of the elevators on the western coast, for use of his majesty's forces.

CAPTURED PATROLS DECLARE FOODS GETTING SCARCE

Large German Force Moving Through Duchy of Luxembourg—Now at Frontier.

Bombardment of Fortifications Proceeded With Without Intermission.

London, Aug. 11, (12:35 p.m.)—"The new admiralty and war office information bureau established by the German government stated this morning. Its first announcement was as follows: About two cavalry divisions are in the neighborhood of Tongres to the north of Liege. Three German army corps will be opposite Liege and other German troops reported to be entrenching along the line of the River Aisne."

"The large German force is moving through the Duchy of Luxembourg and its advance troops are now at the Belgian frontier."

German cavalry patrols have been reported near Marchiennes and Arlon. Several individual soldiers belonging to German patrols have been captured both in France and Belgium. In all cases they reported that they were short of food for both men and horses and are reported to have made no resistance.

"The British consul general at Shanghai, China, reports that no British vessels have been seized or molested."

"Report from the Hague, Holland, states that public nervousness in that country has been allayed. Since the publication of Great Britain's attitude respecting the neutrality of the Netherlands."

"It is stated that the Germans lost 8,000 killed before Liege, but this is unverified."

"A report states that the principle Liege forts are still holding out, although several of the smaller forts have been captured by the Germans. The bombardment of the fortifications by the Germans is proceeding without intermission. On one occasion a fort apparently had been silenced, but when German infantry men advanced to attack it, a hail of bullets was poured into them so suddenly and effectively that they retired with heavy loss."

"The German attackers, who are constantly being reinforced, displayed great courage."

"It is stated that 120,000 men of the German army are engaged in the attack of Liege. Refugees from the city describe the conditions as terrible."

"Many houses have been burned or damaged."

British Captain's Error May Cause Complications Re Italian Neutrality

Reported English Cruiser Fires on Austrian Despatch Vessel by Mistake—Austria May Use Incident as Argument to Force Italy to Forsake Her Present Stand and Live to Terms of Triple Alliance Compact.

(Capital Lensed Wire) Rome, Aug. 11.—It is reported that a British cruiser has fired upon the Austrian despatch vessel, the Taurus, by mistake, the shots making several holes in the Austrian ship. An Austrian admiral was aboard the Taurus at the time.

There is some speculation whether the British will be able to convince the Austrians that the firing on the Taurus was accidental; also as to the identical relations existing between the two countries.

War does not yet officially exist between Austria and England, and it is believed likely that Austria will seek to use the incident as an argument to force Italy to forsake her neutrality and implement the terms of the triple alliance compact.

There is no expectation here that the Italian government will be persuaded by such a course.

Division of Second German Army Concentrated at Neu Breischach to Check Advance of Invaders Who Have Already Swept Through Femy, Mulhausen, Altkirch and Colmar.

London, Aug. 11.—A terrific battle is believed to have been in progress during yesterday between the German and French forces near Neu Breischach, for the French line of advance between Belfort and Mulhouse.

Neu Breischach is strongly fortified, and it is said a division of the second German army has been concentrated there to check the advance of the French, who have already swept through Femy, Mulhausen, Altkirch and Colmar.

French reinforcements are reported to be rushing through the pass east of Belfort, in an effort to prevent a force of 40,000 Austrians from cutting the French line of advance between Belfort and Mulhouse. The Austrians, it is said, are in force near Basel, Switzerland.

The Germans, it is reported, are hurrying reinforcements to Neu Breischach from Strasbourg.

THE ONLY HOPE FOR GOOD ARISING OUT OF THE WAR

That the war in Europe is recognized on all sides as the crime of the centuries is being made manifest by the attempts of the responsible men of each nation to thrust upon those of the other nations the blame for having precipitated hostilities, and in this respect the German emperor is loudest of all in his protests.

But if something is sought upon which to lodge the blame it must be recognized that the one thing above all others which has made the war inevitable was the military despotism which has held Germany in its thrall, bred militarism, inoculated a large section of its population with the virus of conquest and aggrandizement, taxed its people to the point of revolt, spent all the years of peace preparing for war and kept the whole of Europe in the status of an armed camp, on the quiver, awaiting the outbreak.

To this policy of the military autocracy, of which Emperor William is the personification and embodiment, there was only one logical finish, a ghastly and devastating war.

Now the war has come and the world looks on in horror at the spectacle. Millions of men under arms march to the conflict. The possibilities for slaughter are so tremendous as to be appalling. In the Balkan wars, the nearest approach to that which is now commencing in Europe, one million five hundred thousand men bore arms, and of these one third were left dead on the battlefields of campaigns executed in the short space of twelve months. The Russ-Jap war, which also lasted only about a year, cost a quarter of a million lives. But compared with the war now commencing in Europe, these were minor struggles. Single battles in the present war may cost as many lives as the entire Russian-Japanese war or even as the entire two Balkan campaigns.

Out of all this evil there is only one hope that any good can come; the hope that the war may bring a new epoch in which military autocracy will be overthrown, when it will be no longer possible for a bureaucracy to burden a people with militarism, to conscript soldiers by the millions and march them to battle without their consent.

That this may be the outcome is more than probable. The high cost of living that will follow in the wake of war will soon stop the shouting about victories. Already Britain, the nation least anxious for war, has experienced the intolerable burden of the burden thrust upon her as the cost of constant preparedness. The constantly-growing cost of armaments, to say nothing of the ever increasing number of men taken from productive activities to waste their lives in militarism, has been felt by all Europe for years, even before the outbreak of the war. What the burden of debt will be by the time the war is brought to a close surpasses calculation, but certainly the nations will be plunged into liabilities which will not have been liquidated by the great grandchildren of the men who do the working and the fighting and who are now marching to the front under the flags of all nations. The war debts of the Napoleonic campaigns have not yet been wiped off, although it is a century ago—lacking a year—since the little Corsican met his finish and although the cost of the Napoleonic campaigns was but a trifle compared to the cost and destructiveness of a modern war. And certain it is that the powers involved in the present war will not desist so long as there is a dollar in their treasuries, a resource which can be commandeered or a limit to which their credits can be extended. This is a fight to a finish, due to surpass in destructiveness and stubbornness all the conflicts of ancient and modern times, and to leave behind it, besides the monetary cost and the destructiveness and the countless dead, numbers of wrecked and mangled survivors in every land, their horrifying wounds and their lives of helpless anguish making them an age-long burden upon the sympathies of their countrymen and a constant reminder of the futility and wantonness and wastefulness of this horror called war.

And in the disconsolate ending, as men gaze in grief over the ruins of a wrecked and ravaged civilization, is it unreasonable to suppose that the race will turn in rage and exasperation against the despots, bureaucracies and autocracies which made such a scourge possible? Is it unreasonable to suppose that there will be a revolution in which crowns will go into the melting pot, thrones tumble, dynasties crash and the institutions of autocratic authority be wiped out forever, to be replaced by governments holding power not as a divine right but by the consent of the people governed?

This is the only hope that good may come out of the war. It is a terrible price to pay. But if despotism can be forever destroyed the war may not have been entirely in vain.

THIS THE TIME FOR TOLERATION

In Canada are many thousands of persons whose birth place lies in foreign lands beyond the sea. They have come to this country to follow the avocations of peace. Many of them left their native land to escape the militarism of Europe which has culminated in this terrible conflict. Not a few of them come from countries with which Great Britain is now at war. But obviously these people had no hand in the making of the war. They are not responsible for the actions of the rulers of the country from which they came. It is not their war. They are here because we have invited them to come and enjoy the freedom and advantages which Canada affords to all, no matter of what nationality. When this war is over we in Canada intend to invite a million more to come and make their homes here. And when they come we will not even ask them whether or not circumstances over which they had no control projected them into the ranks of the legions with which Britain is now fighting.

At this juncture it would be beneath the dignity of Canadians to offer them insult, affront or discourtesy. This is the time for toleration.

The Adventures of Kathlyn

By Harold MacGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn Hale, following her father, Col. Hale, in peril, has accompanied her father's home to California to go to him in Alaska, India. Umhahl, pretender to the throne of that principality, has imprisoned the colonel, named by the late king as his heir, because he fears the American may claim the throne.

Upon her arrival in Alaska Kathlyn is informed by Umhahl that, and her father, she is to be queen and marry him forthwith. Because of her narrow escape in the forest, she is not at all inclined to accept the offer, and she is sent to a prison where she is held with wild beasts.

After a ride filled with peril Kathlyn is taken to a place where she is to be married to Umhahl. She is to be married to him in the presence of the king and his court.

ITALIAN COLONY MAY BE STARTED AT LAC LA RICHE

Victor Emmanuel III. Society Asks Interior Department to Reserve Location.

PLANS ARE AMBITIOUS: WOULD FINANCE SETTLERS Proposal Has Support of Development Department of A. & G.W.

For the purpose of securing land sufficient to make possible the carrying out of its plans for an Italian colony on the line of the Alberta and Great Waterways railway, the Victor Emmanuel III Italian society of Edmonton is making the interior department at Ottawa to reserve location by members of the society four townships around Big Lake, near Lac La Riche, about 15 miles to the north-east of Edmonton. The society is not asking for a grant of land, but a sufficient scope of country to be held for location by the families to be established by the society to permit of self-sufficiency.

Plans are Ambitious The plans of the society are ambitious. Working along the lines of the co-operative loan societies which have become such large and permanent institutions in Italy and are lately reaching into California, it proposes to prepare farms for settlement, to place families on the first year or so in the purchase of the necessary stock and in getting their crop, and to permit the repayment on long terms at a low rate of interest.

Desirable Farming Country The section of country chosen by the society for its operations is described as a most desirable farming country, high and dry, with gently rolling prairie, plenty of water, good hay and sufficient timber. The country has only recently been surveyed and as yet no homesteading to amount to anything has been done. The graders are working in the vicinity and the road bed is almost complete to Lac La Riche, guaranteeing transportation in the immediate future for the new colony, should the government at Ottawa agree to make it a permanent establishment.

The society hopes to be able to establish not less than four hundred families in the four townships selected the first of whom will go in this summer early enough to put up hay for next winter's stock and a number more will go in later in the autumn to get out timber and build houses during the winter.

Visits Lac La Riche The society has the moral support of the city of Edmonton, and G. L. Porte, as of the development department of the Great Waterways railway, and the assurance of the local office officials that they would look kindly upon the experiment.

For the purpose of looking over the ground and mapping out a definite plan, a delegation representing the society went out to Lac La Riche, returning last Monday and yesterday afternoon. In the Mechanics hall made much of the trip, and the delegation, consisting of the president, J. F. Macdonald, secretary, J. F. Macdonald, and a number of others, were met by a delegation of the land-owners of the country who were interested in the project.

SCHOOL BOARD STILL UNDECIDED WHO SHALL BE PHYSICAL LEADER

The question of the appointment to the position of supervisor of playgrounds was again up for discussion at an adjourned meeting of the school board last night, but after an hour's debate, during which some heated arguments arose, the matter was left undecided as to who the appointee is to be. The two factions of the board are at loggerheads one wanting to accept the resignation of George H. Jackson, and in favor of the appointment of Captain Flint, and the other wishing to dismiss Flint and reappoint Jackson. The outcome of the affair will be watched with interest. The meeting finally adjourned without a final decision being made. The work of both men is up for criticism by the opposite faction on the board.

MANY VOLUNTEER FOR SERVICE IN PRINCESS PAT'S

Enlistment of Corps Proceeding Briskly Under Captain McKinery's Supervision—First Detachment Will Be Shipped East Tonight or Tomorrow—Business Men and Men With Money Are Anxious to Serve—Three Hundred Ex-Service Men Will Be Taken From Edmonton.

A splendid response has been made by the men of Edmonton following the announcement by Captain McKinery that applications would be received for enlistment in Princess Patricia's Light Infantry.

Enlistments are proceeding rapidly. Captain McKinery is located at 14 Jasper west, just west of the Selkirk hotel, in the offices formerly occupied by Yorks and McNamee. Over ninety applications were received in the first day's enrollment, most of the men having had previous military experience, and many of them being ex-members

of British regiments. The proposed strength of the Edmonton contingent is three hundred.

Many Ship Tonight.

It is intended to ship the first detachment east by tonight or tomorrow. The following telegram was received yesterday by Captain McKinery from Col. Parquhar, the Duke of Connaught's military secretary:

Ottawa, Aug. 18.

Many thanks for telegram. Conditions of service are excellent. Enlistment for one year. Cana-

dian rate of pay. Qualifications as wired. Battalion authorized today and transportation should be possible Tuesday or Wednesday. Recruit up to 200. Let me have roll at once, with names, age, with discharge, age, regiment, with complete details.

PARQUHAR.

Men are offering themselves very readily and are being medically inspected by Dr. Ferrie's staff. Some very fine men are enrolling, including men in good positions and men with money, and others with nothing but pluck and good physique. Everything is being done very expeditiously.

Warned to Report.

The following men are warned to report immediately to receive orders to proceed east:

J. W. Miller, J. Harris, W. J. Peden, Robt. Davis, H. R. Baird, E. Riley, C. H. Webster, A. Liffitt, J. Sims, R. Wylie, C. McNally, D. Stirling, O. Jones, G. R. Phillips, Alex. Rennie, M. Shaw, E. Nelson, H. Hart, G. Carfield, K. Wesley, H. Jennings, S. Timmelf, P. Foster, P. Redman, H. Thales, P. Stewart, J. C. McMillan, T. McMillan, A. Simmonds, J. H. Harrison, T. H. Macroe, G. Murray, L. ROYAL EDWARD ALLOWED TO LEAVE MONTREAL WITH 500 FRENCH RESERVISTS

Montreal, Aug. 11.—The order closing the port of Montreal was temporarily lifted today to allow the steaming Royal Edward to sail with 500 French reservists on board. The Royal Edward expects to meet French and British warships in the Gulf and be conveyed across the Atlantic. In England the vessel may be taken over by the British admiralty.

While the ports of Montreal and Quebec have been closed so far as ocean going traffic is concerned this order which was explained by the post Tuesday, has no reference to inland water traffic on the rivers and lakes.

Allan Line Sailings Cancelled.

Montreal, Aug. 11.—The British admiralty has cancelled all trans-Atlantic sailings of the Allan line steamers Altair, Victorian and Corsican, and will use the vessels to transport supplies and troops, presumably from Canada to Europe, according to announcement made by the line today.

In Selecting Your
Afternoon Gown

A great deal depends upon the personal attention you get from your gown maker or dealers of ready-made gowns, and upon whether she gives you honest and disinterested advice. Style is style and fit is fit, but all styles are not becoming to everyone and there are different degrees of "fit."

The next time you are ready to order an afternoon gown, suppose you glance through the Capital. Those ads are the ads of specialists who will be very glad to give you work unusual care and their best individual attention. They are the advertisers that are making money.

Thousands of Edmonton's best dressed women have gotten the habit of reading Capital announcements every day, for in that way they not only pick up bargains but they get acquainted with just the kind of shopkeepers they've long been looking for.

UNIQUE EXHIBITS STRIKING FEATURE AT SUMMER FAIR

Yellowhead Pass Coal Company Display Takes Shape of Miniature Mine.

DAIRY SUPPLY UTENSILS
OF VERY LATEST PATTERN

Edmonton's Growth Illustrated
By Big Increase of Exhibits at Grounds.

In the machinery hall, the Yellowhead Pass Coal and Coke company have an exhibit entirely original and unique. Their display takes the form of a typical Alberta mine entrance, where visitors may see a facsimile of the place their coal comes from. Very attractive is the grassy bank with its doorway cut in the soil. A coal car loaded with the coal which made the Yellowhead Pass famous, stands half in, half out. The dimly lit passage leading into the mine adds to the illusion.

The Yellowhead Pass Coal and Coke company mines the highest grade domestic coal mined in western Canada at the present time. This coal is specially adapted for steam purposes, and about half the output of the mine is used thus, while the remainder is used for domestic purposes. The mine is about 180 miles west of Edmonton on the Alberta coast branch of the G.T.P. The output is between four and five hundred tons daily.

The Delaval Dairy Supply company have a display of dairy utensils which would gladden the heart of the most modern housewife. Delaval cream separators of the most up-to-date type and Alpha gasoline engines to run the separators, churns, etc. Official milk coolers where milk may be cooled for market by running through ice cooled pipes. A sanitary churn where the cream comes in contact with neither metal nor wood, is most attractive in these days when germs lurk in every nook. The Eureka sanitary churn has a body of stoneware, and a lid of heavy glass. The churn is hung in a wheeled framework convenient for moving from place to place.

Melotte cream separators are found in the exhibit of the R. B. Lister company, Winnipeg. These separators have hanging bowls thus doing away with bottom bearings; the bowl itself only square cut steel, gear in an separator made. The Lister engine, a British made gasoline engine, is also included in this exhibit, and is adapted for grinding, driving electric dynamo, and for all farm uses. The R. B. Lister company has headquarters in Carleton Place and is doing a thriving business in Alberta.

R. B. Hill and company have a splendid display of vehicles, harness, saddles and equipment for horse and conveyance. The R. B. Hill and company handle the heavy harness manufactured by the Great Northern Tannery company of the United States, and light harness of the Great West Saddlery company. Hill's sale stables is represented by the miniature stable with four pointers in neat whitewashed stalls, harness hanging on the pegs, and the best feed obtainable, ready for dinner time.

Bentley brothers, Winnipeg, exhibit feed carriers, dairy churns, pump, stable equipment, and heavy hardware. Louden's Hardware Specialty company also have a display of stable equipment.

The Hummelstone Coal company has an exhibit of bituminous coal ready for the inspection of exhibition visitors. This is real Edmonton coal, and comes in three grades, lump, mine, and nut. The Hummelstone mines are located about three miles north of the machinery hall.

The Western Auto Accessories have arranged a fine display of auto accessories which will appeal to the heart of the motorist.

These are only a few of many fine displays which will make the machinery hall equally attractive as the manufacturers' building, of which it is an annex. The fact that it has become so popular shows the growth the Edmonton exhibition is making, since a few years ago exhibitors in these buildings occupied the idea of Edmonton being a profitable place for displaying their wares. Now the buildings cannot accommodate the throngs who are anxious to take advantage of the exhibition, and seek concession spaces long before the exhibition opens.

Italy Demands An Explanation From Her Ally

Stated Turkey Is Mobilizing Under Germans; Swiss Meet Kaiser's Troops

London, Aug. 11.—According to the correspondent at Rome of the Morning Post, the relations between Italy and Austria are becoming more strained. Italy has demanded an explanation of the bombardment of the establishment of Pupia company at Antivari, Montenegro, over which the Italian flag floats and in which were Italians.

Athens, Aug. 11.—Despatches received here state that, despite Turkey's declaration of neutrality, the Turkish army is being rapidly mobilized under the superintendence of German officers.

London, Aug. 11, (8.10 a.m.)—The Daily Mail's advice from Basel, Switzerland, state that the Swiss and German troops are close to the frontier and within a few yards of each other near Basel. The Germans have built barricades across all the roads leading across the frontier. The Swiss army is massed mainly on the French frontier, but considerable bodies of troops are being sent to Ticino to guard the Italian frontier.

London, Aug. 11.—A despatch from Brussels to the Times says that it is rumored there that the Germans are massing large forces on the Dutch frontier. Replying to questions, the Dutch minister to Belgium, declared that whatever happened, Holland would maintain her neutrality unswervingly.

Sofia, Aug. 11.—(via London)—Premier Radoslawoff announced in the Sobranje that Bulgaria had determined to observe the strictest neutrality, but that the government was prepared to repulse any violation of her frontier.

MOBILIZATION IN ENGLAND PROCEEDING RAPIDLY SAYS TIMES

(Capital Leased Wire)
London, Aug. 11.—According to today's Times England is now well on with her mobilization and has between 200,000 and 400,000 men under arms not counting the national reserve.

"We should therefore, view the situation with comparatively equanimity," says the Times, "and not be turned from any masculine resolve by the threat of an assault by the German navy."

Fine Spirit Prevails
(Capital Leased Wire)

Harwich, Aug. 11.—The spirit animating the British navy is finely exhibited in Captain Fox, the commander of the ill-fated Amphion. Although suffering from a burnt hand and face, in addition to the shock, he must have sustained when his ship was blown up, he has left England again on active service, having been appointed to another command.

GOING MAD FROM THE TERRIFIC PAIN

Prominent Merchant Thinks His Life Was Saved By "Fruit-a-tives"

Drysdale, Ont., June 15th, 1913.
"I am a general storekeeper at the above address and on account of the great good I have experienced from using 'Fruit-a-tives', I recommend them to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrible pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took 'Fruit-a-tives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-tives', and I verily believe they saved me from a disastrous illness."

FIRST MEETING LOCAL COUNCIL OF WOMEN HAS EXCEPTIONAL RESULTS

In response to the call for \$100,000 from the women of Canada for a hospital ship for use during the European war, a meeting of the local Council of Women was held yesterday in the Y.W.C.A. parlors. There was a large and enthusiastic attendance and \$2,500 was pledged by the societies represented. The local Council of Women is a union of several women's societies in the city and several have not yet been heard from, so that it is probable that the \$2,500 promised yesterday will be considerably augmented by the others.
